

# Service and Support

Honolulu Wood Treating has been proudly serving Hawaii's building industry for almost 60 years. From our small beginnings and original location near Sand Island, we are now Hawaii's largest wholesale building materials distributor. HWT is currently located in the Campbell Industrial Park, in Oahu's fastest growing "second city", Kapolei.

Our business is the wholesale distribution of building products which demonstrate unbeatable quality and exceptional value. We service all islands and currently supply over 50 retail locations throughout the state.

We are also Hawaii's largest and oldest Wood Treatment facility, our plant is capable of treating in excess of 5 million board feet of lumber and plywood every month.

Please read more about our current product offerings inside this pamphlet. We are committed to providing you with the highest quality products and customer service. Please call us to speak with a knowledgeable sales representative today, we're here to help!

Aloha & Mahalo!
